SAFETY DATA SHEET
CO 2 %; N2 98 %

Issue Date: 20.12.2012
Last revised date: 18.12.2017
Version: 1.1
SDS No.: 000010011879

1/16

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Product name: CO 2 %; N2 98 %

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: Industrial and professional. Perform risk assessment prior to use.
Uses advised against: Consumer use.

1.3 Details of the supplier of the safety data sheet

Supplier: Linde Gas Italy S.r.l.
Via G. Rossa, 3
I-20010 Arluno (MI)

Telephone: +39 02 903731
E-mail: SDS@it.linde-gas.com

1.4 Emergency telephone number: +39 02 66101029 - Poison Information Centre, Niguarda Hospital

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 as amended.

Physical Hazards
Gases under pressure: Compressed gas
H280: Contains gas under pressure; may explode if heated.

Health Hazards
Toxic to reproduction: Category 1A
H360D: May damage the unborn child.
Specific Target Organ Toxicity - Repeated Exposure: Category 2
H373: May cause damage to organs through prolonged or repeated exposure.

2.2 Label Elements

Contains: Carbon monoxide

Signal Words: Danger
Hazard Statement(s):
H280: Contains gas under pressure; may explode if heated.
H360D: May damage the unborn child.
H373: May cause damage to organs through prolonged or repeated exposure.

Precautionary Statements
Prevention:
P202: Do not handle until all safety precautions have been read and understood.
P260: Do not breathe gas/vapors.

Response:
P308+P313: IF exposed or concerned: Get medical advice/attention.

Storage:
P403: Store in a well-ventilated place.

Disposal: None.

Supplemental label information
Restricted to professional users.

2.3 Other hazards:
None.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

<table>
<thead>
<tr>

<td></td>
</tr>
</tbody>
</table>

The concentrations of the components in the SDS header, product name on page one and in section 3.2 are in mol due to regulatory requirements.
All concentrations are nominal.
# # This substance has workplace exposure limit(s).
PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.

SAFETY DATA SHEET
CO 2 %; N2 98 %

SECTION 4: First aid measures

General: Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Apply artificial respiration if breathing stopped.

4.1 Description of first aid measures
Inhalation: Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Apply artificial respiration if breathing stopped.

Eye contact: Adverse effects not expected from this product.

Skin Contact: Adverse effects not expected from this product.

Ingestion: Ingestion is not considered a potential route of exposure.

4.2 Most important symptoms and effects, both acute and delayed:
Danger of serious damage to health by prolonged exposure. Causes damage to organs.

4.3 Indication of any immediate medical attention and special treatment needed
Hazards: Danger of serious damage to health by prolonged exposure. Causes damage to organs.

Treatment: Get immediate medical advice/attention.

SECTION 5: Firefighting measures

General Fire Hazards: Heat may cause the containers to explode.

5.1 Extinguishing media
Suitable extinguishing media: Use water spray to reduce vapors or divert vapor cloud drift. Water. Dry powder. Foam. Carbon Dioxide.

Unsuitable extinguishing media: None.

5.2 Special hazards arising from the substance or mixture:
No data available.

5.3 Advice for firefighters
Special fire fighting procedures: In case of fire: Stop leak if safe to do so. Keep run-off water out of sewers and water sources. Dike for water control. Continue water spray from protected position until container stays cool. Use extinguishants to contain the fire. Isolate the source of the fire or let it burn out.
SAFETY DATA SHEET
CO 2 %; N2 98 %

Issue Date: 20.12.2012
Last revised date: 18.12.2017
Version: 1.1
SDS No.: 000010011879

Special protective equipment for fire-fighters:
Gas tight chemically protective clothing (Type 1) in combination with self contained breathing apparatus.
Guideline: EN 943-2 Protective clothing against liquid and gaseous chemicals, aerosols and solid particles. Performance requirements for gas-tight (Type 1) chemical protective suits for emergency teams (ET)

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures:
Evacuate area. Provide adequate ventilation. Monitor the concentration of the released product. Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous. Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe. EN 137 Respiratory protective devices - Self-contained open-circuit compressed air breathing apparatus with full face mask - Requirements, testing, marking.

6.2 Environmental Precautions:
Prevent further leakage or spillage if safe to do so. Reduce vapour with fog or fine water spray. Keep run-off water out of sewers and water sources. Dike for water control.

6.3 Methods and material for containment and cleaning up:
Provide adequate ventilation.

6.4 Reference to other sections:
Refer to sections 8 and 13.
SECTION 7: Handling and storage:

7.1 Precautions for safe handling: Only experienced and properly instructed persons should handle gases under pressure. Avoid exposure - obtain special instructions before use. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Installation of a cross purge assembly between the container and the regulator is recommended. Excess pressure must be vented through an appropriate scrubber system. Refer to supplier’s handling instructions. The substance must be handled in accordance with good industrial hygiene and safety procedures. Protect containers from physical damage; do not drag, roll, slide or drop. Do not remove or deface labels provided by the supplier for the identification of the container contents. When moving containers, even for short distances, use appropriate equipment eg. trolley, hand truck, fork truck etc. Secure cylinders in an upright position at all times, close all valves when not in use. Provide adequate ventilation. Suck back of water into the container must be prevented. Do not allow backfeed into the container. Avoid suckback of water, acid and alkalis. Keep container below 50°C in a well ventilated place. Observe all regulations and local requirements regarding storage of containers. When using do not eat, drink or smoke. Store in accordance with. Never use direct flame or electrical heating devices to raise the pressure of a container. Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use. Damaged valves should be reported immediately to the supplier Close container valve after each use and when empty, even if still connected to equipment. Never attempt to repair or modify container valves or safety relief devices. Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment. Keep container valve outlets clean and free from contaminates particularly oil and water. If user experiences any difficulty operating container valve discontinue use and contact supplier. Never attempt to transfer gases from one container to another. Container valve guards or caps should be in place.

7.2 Conditions for safe storage, including any incompatibilities: Containers should not be stored in conditions likely to encourage corrosion. Keep away from food, drink and animal feeding stuffs. Stored containers should be periodically checked for general conditions and leakage. Container valve guards or caps should be in place. Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible material.

7.3 Specific end use(s): None.

### 8.2 Exposure controls

**Appropriate engineering controls:**

Consider a work permit system e.g. for maintenance activities. Ensure adequate air ventilation. Provide adequate general and local exhaust ventilation. Keep concentrations well below occupational exposure limits. Systems under pressure should be regularly checked for leakages. Product to be handled in a closed system and under strictly controlled conditions. Only use permanent leak tight installations (e.g. welded pipes). Do not eat, drink or smoke when using the product.

**Individual protection measures, such as personal protective equipment**

**General information:**

A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered. Keep self contained breathing apparatus readily available for emergency use. Keep suitable chemically resistant protective clothing readily available for emergency use. Personal protective equipment for the body should be selected based on the task being performed and the risks involved. Protect eyes, face and skin from contact with product. Refer to local regulations for restriction of emissions to the atmosphere. See section 13 for specific methods for waste gas treatment.

**Eye/face protection:**

Wear eye protection to EN 166 when using gases. Guideline: EN 166 Personal Eye Protection.

**Skin protection**

**Hand Protection:**

Wear working gloves while handling containers Guideline: EN 388 Protective gloves against mechanical risks. Chemically resistant gloves complying with EN 374 should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Guideline: EN 374-1/2/3 Protective gloves against chemicals and microorganisms.

**Body protection:**

No special precautions.
SAFETY DATA SHEET
CO 2 %; N2 98 %

Other:
Wear safety shoes while handling containers
Guideline: ISO 20345 Personal protective equipment - Safety footwear.

Respiratory Protection:
Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances. The selection of the Respiratory Protective Device (RPD) must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected RPD.

Thermal hazards:
No precautionary measures are necessary.

Hygiene measures:
Obtain special instructions before use. Specific risk management measures are not required beyond good industrial hygiene and safety procedures. Do not eat, drink or smoke when using the product.

Environmental exposure controls:
For waste disposal, see section 13 of the SDS.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance
Physical state: Gas
Form: Compressed gas
Color:
CO: Colorless
N2: Colorless
Odor:
CO: Odorless
N2: Odorless gas
Odor Threshold: Odor threshold is subjective and is inadequate to warn of over exposure.

pH: not applicable.
Melting Point: No data available.
Boiling Point: No data available.
Sublimation Point: not applicable.
Critical Temp. (°C): No data available.
Flash Point: Not applicable to gases and gas mixtures.
Evaporation Rate: Not applicable to gases and gas mixtures.
Flammability (solid, gas): This product is not flammable.
Flammability Limit - Upper (%): not applicable.
Flammability Limit - Lower (%): not applicable.
Vapor pressure: No reliable data available.
Vapor density (air=1): 0.99 (calculated) (15 °C)
Relative density: No data available.
Solubility(ies)
### SECTION 10: Stability and reactivity

**10.1 Reactivity:**
No reactivity hazard other than the effects described in sub-section below.

**10.2 Chemical Stability:**
Stable under normal conditions.

**10.3 Possibility of hazardous reactions:**
No data available.

**10.4 Conditions to avoid:**
Avoid moisture in the installation.

**10.5 Incompatible Materials:**
Moisture. For material compatibility see latest version of ISO-11114.

**10.6 Hazardous Decomposition Products:**
Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### SECTION 11: Toxicological information

**General information:**
Carbon monoxide: Has been shown to produce adverse effects to the cardiovascular, central nervous, and reproductive systems in laboratory animals and chronically exposed humans.

**11.1 Information on toxicological effects**

**Acute toxicity - Oral Product**
Based on available data, the classification criteria are not met.

**Acute toxicity - Dermal Product**
Based on available data, the classification criteria are not met.
SAFETY DATA SHEET
CO 2 %; N2 98 %

Acute toxicity - Inhalation
Product
ATEmix (4 h): > 20000 ppm Based on available data, the classification criteria are not met.

Component Information
Carbon monoxide
LC 50 (Rat, 4 h): 1300 ppm
LC 50 (Rat, 1 h): 3760 ppm

Repeated dose toxicity
Component Information
Carbon monoxide
LOAEL (Rat(Female), Inhalation, 72 Weeks): 200 ppm(m) Inhalation Experimental result, Key study
LOAEC (Rat, Inhalation): 200 ppm (Target Organ(s): Respiratory system)

Skin Corrosion/Irritation
Product
Based on available data, the classification criteria are not met.

Component Information
Carbon monoxide
Not classified as an irritant.

Serious Eye Damage/Eye Irritation
Product
Based on available data, the classification criteria are not met.

Component Information
Carbon monoxide
Not classified as an irritant.

Respiratory or Skin Sensitization
Product
Based on available data, the classification criteria are not met.

Component Information
Carbon monoxide
No known effects from this product.

Germ Cell Mutagenicity
Product
Based on available data, the classification criteria are not met.

Component Information
Carbon monoxide
There is no evidence of mutagenic potential.

Carcinogenicity
Product
Based on available data, the classification criteria are not met.
Component Information
Carbon monoxide
No evidence of carcinogenic effects.

Reproductive toxicity
Product
May damage fertility or the unborn child.

Component Information
Carbon monoxide
May damage fertility or the unborn child.

Reproductive toxicity (Fertility)
Component Information
Carbon monoxide
NOAEC (embryotoxicity): 65 ppm

Developmental toxicity (Teratogenicity)
Component Information
Carbon monoxide
LOAEC: 125 ppm

Specific Target Organ Toxicity - Single Exposure
Product
Based on available data, the classification criteria are not met.

Component Information
Carbon monoxide
Route of Exposure: Inhalation
Target Organ(s): Blood
Causes damage to red blood cells (haemolytic poison). Carbon monoxide binds reversibly to haemoglobin (Hb) to form carboxyhaemoglobin (CoHb), reducing the capacity of the blood to transport oxygen.

Specific Target Organ Toxicity - Repeated Exposure
Product
May cause damage to organs through prolonged or repeated exposure.

Component Information
Carbon monoxide
Route of Exposure: Inhalation
Target Organ(s): Heart
Risk of serious health injuries in case of long term exposure.

Aspiration Hazard
Product
Not applicable to gases and gas mixtures.
### SECTION 12: Ecological information

#### 12.1 Toxicity

**Acute toxicity**

**Product**

No ecological damage caused by this product.

**Acute toxicity - Fish**

**Component Information**

Carbon monoxide

LC 50 (Fish (no species mentioned)): 672,6 mg/l

Remarks: QSAR QSAR, Supporting study

**Acute toxicity - Aquatic Invertebrates**

**Component Information**

Carbon monoxide

LC 50 (48 h): 307,5 mg/l

Remarks: QSAR QSAR, Supporting study

#### 12.2 Persistence and Degradability

**Product**

Not applicable to gases and gas mixtures.

**Component Information**

Carbon monoxide

Will not undergo hydrolysis.

**Biodegradation**

**Component Information**

Carbon monoxide

Not readily biodegradable. Inorganic compound.

#### 12.3 Bioaccumulative potential

**Product**

The subject product is expected to biodegrade and is not expected to persist for long periods in an aquatic environment.

**Component Information**

Carbon monoxide

Because of the low log Kow, accumulation in organisms is not expected.

#### 12.4 Mobility in soil

**Product**

Because of its high volatility, the product is unlikely to cause ground or water pollution.

**Component Information**

Carbon monoxide

Because of its high volatility, the product is unlikely to cause ground or water pollution.

Last revised date: 18.12.2017
Version: 1.1
SDS No.: 000010011879

12.5 Results of PBT and vPvB assessment
Product: Not classified as PBT or vPvB.

12.6 Other adverse effects:
No ecological damage caused by this product.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

General information: Avoid discharges to atmosphere. Consult supplier for specific recommendations.

Disposal methods: Refer to the EIGA code of practice (Doc.30 "Disposal of Gases", downloadable at http://www.eiga.org) for more guidance on suitable disposal methods. Dispose of container via supplier only. Discharge, treatment, or disposal may be subject to national, state, or local laws.

European Waste Codes
Container: 16 05 04*: Gases in pressure containers (including halons) containing dangerous substances.

   Other information
   Passenger and cargo aircraft: Allowed.
   Cargo aircraft only: Allowed.

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: not applicable

Additional identification:
Avoid transport on vehicles where the load space is not separated from the driver’s compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency. Before transporting product containers ensure that they are firmly secured. Ensure that the container valve is closed and not leaking. Container valve guards or caps should be in place. Ensure adequate air ventilation.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

EU Regulations

Key literature references and sources for data:
Various sources of data have been used in the compilation of this SDS, they include but are not exclusive to:
- Agency for Toxic Substances and Diseases Registry (ATSDR) (http://www.atsdr.cdc.gov/).
- European Industrial Gases Association (EIGA) Doc. 169 Classification and Labelling guide.
- International Programme on Chemical Safety (http://www.inchem.org/)
- ISO 10156:2010 Gases and gas mixtures - Determination of fire potential and oxidizing ability for the selection of cylinder valve outlets.
- The ESIS (European chemical Substances 5 Information System) platform of the former European Chemicals Bureau (ECB) ESIS (http://ecb.jrc.ec.europa.eu/esis/).
- The European Chemical Industry Council (CEFIC) ERICards.
- Threshold Limit Values (TLV) from the American Conference of Governmental Industrial Hygienists (ACGIH).
- Substance specific information from suppliers.
- Details given in this document are believed to be correct at the time of publication.

Wording of the H-statements in section 2 and 3

H220 Extremely flammable gas.
H280 Contains gas under pressure; may explode if heated.
H331 Toxic if inhaled.
H360D May damage the unborn child.
H372 Causes damage to organs through prolonged or repeated exposure.
H373 May cause damage to organs through prolonged or repeated exposure.

Training information: Users of breathing apparatus must be trained. Ensure operators understand the toxicity hazard.

Classification according to Regulation (EC) No 1272/2008 as amended.
Repr. 1A, H360D
STOT RE 2, H373
Press. Gas Compr. Gas, H280

Other information: Before using this product in any new process or experiment, a thorough material compatibility and safety study should be carried out. Ensure adequate air ventilation. Ensure all national/local regulations are observed. Whilst proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted.
